Excellent 4 bedroom villa in project - Ribeira Brava

The villa will have four bedrooms, all of which are suites, providing privacy and comfort to the residents. One bedroom is on floor 0, making it more attractive for those who have difficulty climbing steps. The remaining bedrooms are on the 1st floor, all facing south.

The kitchen will be open concept, integrated with the living room, which creates a large and welcoming space, facilitating interaction between the different areas of the house. This allows residents to always be connected, even while preparing meals or entertaining visitors. The laundry room is a practical and functional element, contributing to the organization and optimization of household chores.

In addition, the project provides for a leisure area with a swimming pool, ideal for moments of conviviality with friends and family outdoors, providing the possibility of cooling off on warmer days and enjoying relaxing moments.
