Land of 4,408m2 in Santo António for apartment construction

We present this extraordinary plot of land with more than 4,000 m², located in Santo António, one of the most sought-after residential areas in the municipality of Funchal. Just a few minutes from all essential services – schools, supermarkets, public transport, health centres – and just 10 minutes from the centre of Funchal, this is a unique investment opportunity.

The land offers constructive potential for buildings, ideal for real estate developers or investors who want to develop a project with high demand. On the land, there is a very old house, also with the possibility of rebuilding.

With a definitive and panoramic view over the sea, the bay of Funchal and the mountains, this property provides a truly privileged setting, enhancing any future construction.
